

CASE

The CASE expression is a conditional expression, similar to if/else statements

Syntax

```
CASE WHEN condition  
THEN result [WHEN ...]  
[ELSE result]  
END
```

```
CASE expression  
WHEN value THEN result  
[WHEN ...]  
[ELSE result]  
END
```

CASE

The CASE expression is a conditional expression, similar to if/else statements

Syntax

```
select customer_name, age,  
(case  
  WHEN age<30 THEN 'Young'  
  WHEN age>60 THEN 'Seniorcittzen!'  
  ELSE 'MiddleAged'  
END )as age_zone  
FROM customer;
```
